DETAILED ACTION

1. Claims 1 to 42 are presented for examination.

Election/Restrictions

2. The restriction requirement between inventions of group I and group II, as set forth in the Office action mailed on 7-24-2006, has been reconsidered in view of applicants request for reconsideration with traverse to the claims of the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.**

Allowable Subject Matter

3. Claims 1 to 42 are allowed.
4. The following is an examiner's statement of reasons for allowance: the present invention is directed to a method and an apparatus for transmitting data in a mobile communication system supporting hybrid automatic repeat request (HARQ) wherein retransmitting scheme is applied for data in a reverse direction. The retransmission scheme utilizes a traffic-to-pilot power ratio (TPR) or a ratio of energy to interference per bit (Eb/Nt) for achieving the stated objectives. The primary reason for the allowance of the claims is a method and an apparatus for mobile communication systems supporting

HARQ comprising a step of controlling transmission of retransmission data using (TPR) or (Eb/Nt) as define in the independent claims).

The prior art made of record teaches various methods for mobile communication using a retransmission scheme with (TPR) or (Eb/Nt); For instance, Sarkar et al. (USP 6996763 B2) one such prior art discloses an acknowledgement method in a wireless communication system with reverse link data operations using the traffic-to-pilot ratio (T/P) for energy compensation; however, the prior art made of record, taken alone, or in combination fails to teach or fairly suggest or render obvious the novel element of the instant invention i.e., the prior art made of record fails to teach or fairly suggest or render obvious a method and an apparatus for mobile communication systems that support HARQ comprising a step of controlling transmission of retransmission data by applying TPR or (Eb/Nt) as recited in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
